

FULL-SERVICE REPAIR & REBUILD CENTER

Republic Manufacturing offers full-service repair & rebuild centers for all types of vacuum pumps, blowers, and low-pressure compressors. Our facilities in Dallas, TX and Denver, CO are fully equipped with electrical capabilities and overhead cranes to allow us to service, repair and test the very largest equipment down to the smallest vacuum pumps. Prior to final inspection, the equipment is painted and tested.

FACTORY-TRAINED SERVICE TECHNICIANS

Our factory-trained technicians are on call 24/7 for any emergencies or services our customers may need.

WARRANTY

We use only genuine parts, which are tested to ensure all OEM tolerances are restored. All services are backed by a six-month warranty on parts and labor.
